# HIDDEN BRAINS: Unraveling the future possibilities

Seeking inspiration from the quote, *“To accelerate success, we must get as close to our dreams as possible as soon as possible”* by the well known author & entrepreneur, Richard Norton, Hidden Brains InfoTech Pvt Ltd. was founded in the year 2003. This Enterprise web & mobile app development company offers a plethora of client centric services by enabling customers to achieve competitive advantages through manageable and next generation global delivery models. Whether it is ISVs or large enterprises, Hidden Brains enables organizations to accelerate their current operations and unleash new potential.

The objective of Hidden Brains is to deliver robust, scalable, viable and quality solutions while adhering to strict deadlines. The company is headquartered at Ahmedabad, India with presence in Germany, Norway and the USA. Due to its commitment to quality and the spirit to innovate, Hidden Brains is currently serving over 2318+ clients across 107 countries with 75% client retention. The company offers its innovative solutions, expertise and services in web, mobility, gaming, open source frameworks, embedded services and IT consultancies.

## Leading face of new-age entrepreneurship & digital world

Vishal Chhawchharia is the Founder, Managing Director & CEO of Hidden Brains InfoTech. With a degree in Mechanical Engineering and stupendous experience of over 23 years, Vishal has been extraordinarily managing the company, formulating and executing long-term business strategies and interacting with employees, clients and other stakeholders. He sets the tone for the company's values, ethics and culture.

Under his leadership and guidance, Hidden Brains is on the brink of making history as one of the most dominant players in the league of GenY Companies. With his steely determination and nerve racking grit to succeed, Vishal has brought along a global perspective of information technology, deep industry experience and passion for innovation. He is the *“Connoisseur of Information”* providing valuable insights on virtually any topic right from technology trends to music.

## Team: The Most Valuable Asset of the Company

Hidden Brains is continuously investing in the upcoming budding talent and innovative technologies through its Centre of Excellence. The team has been constantly motivated to lead the technology spectrum for providing futuristic solutions by staying one step ahead in building a valuable ecosystem thereby delivering best-in-class mobile experiences for end-users.

## Delivering Best Customer Care

At Hidden Brains, technology solutions are tailored made according to the requirements of the customers. The company utilizes powerful programming languages of Swift 4 and Kotlin to work with the latest operating system versions of iOS 11, Android Oreo and Windows 10. We utilize the potential of emerging technologies like Chatbot, Artificial Intelligence, IoT, Virtual Reality and Augmented Reality to deliver world-class services.

Hidden Brains stands out from the crowd of mobility solutions provider by delivering superior values of commitment to quality, on-time delivery, everlasting spirit for innovation and consistently delivering excellence.

## Latest Innovations in Technology

The latest offering by the company is **Configure.IT** – a rapid mobile app development platform. Configure. IT is the perfect answer to meet the demands of ready to market apps that can be created quickly at lower costs. Following are some of the unique and highlighting features of Configure. IT:

- Startups and businesses can develop their code less apps and introduce them in the market within few days of its development. These apps are 100% original, offering high performance and top notch quality.
- Apps can be checked in real time for identifying errors or malfunctions without wasting any time.
- There is no need to install or upgrade the existing hardware. The cloud based apps are specially configured to suit every type of device.
- IT saves development time and costs by forming one platform (i.e. iOS or Android) and synchronizing the entire app with one click for another platform.

## Certification & Alliances

Hidden Brains, is a certified company designed to aid organizations by ensuring fulfillment of customer requirements and stakeholders by meeting statutory and regulatory essentials related to a product or service. It holds certification from the International Organization for Standardization (ISO) as well as a Microsoft silver certified partner. The company is Member of Gujarat Electronics & Software Industries Association (GESIA), as well as NASSCOM and Drupal Associations.

## Accolades & Awards

Right from its inception, Hidden Brains has been climbing the ladder of success with its innovative ideas and expertise in the digital field with an excellent team. The company has won the Deloitte Technology Fast 50 India Award 2013 for being the 25th fastest growing company in India. It has also been presented with the International Star Award, Mobile Technology Breakthrough Award, Best Mobile App Development Company, Best Mobile Application Development and Delivery Award, Best ICT Company of the Year, 2017 Award for IoT Innovation, Corporate Excellence and Entrepreneurship Awards to name a few.

## Future Plans & Strategies

Integrity, excellence, respect, learning, experience and delivery of services are the six pillars behind the success of Hidden Brains for maintaining sustainable growth, continuous profitability and total client satisfaction.

Hidden Brain’s mission is to create innovative products and deliver excellence in services with constant emphasis on engineering, process quality and customer satisfaction. Having covered the projects on IoT and M2M solutions, the company is now moving towards the development of Artificial Intelligence solutions in mobility.
